Adding new layers When you create a new document in Photoshop, you're given the option to create a single-layer image or a layered image. If you decide to create a layered document, you can start by adding all the layers you want to work on. You may have more than one layer in a document, or you may want to set up and organize the elements in your document with multiple layers. For example, you may want to create a background layer, a main subject layer, and a text layer. Photoshop keeps track of the layers in a document by naming them — and by changing the name of a layer, you change the name of the layer. However, if you want to rename a layer, you need to double-click the layer and change the name in the Layers panel, shown in Figure 6-2. The name that appears on a layer is based on the filename that you gave the original image,

so if you rename a layer, the name is updated accordingly. If you create a new document by choosing the File⇒New option, or if you choose File⇒Photoshop⇒New, you automatically create a new empty Photoshop document with a single-layer format. FIGURE 6-2: The Layers panel contains all the information about layers in a Photoshop document. After you create a new document, you can add the following elements to the document: * **Main subject:** The subject of a

Hazkani, Iraq Hazkani (; Romanized: Hāz-Kānī) is a town and a military installation in southeastern Babil Governorate, Iraq. As of 2018, the town is the headquarters of the Iraqi forces' 'Fallujah Corps' division, one of the army's twelve corps. Description The 'Fallujah Corps' is commanded by Maj.-Gen. For much of the Nineteenth Century, the town lay in Ottoman hands, with the administration of the town being the responsibility of the Ottoman kabadırıcı. In the 1890s, the Ottoman state awarded the kabadırıcı to the defterdar (county governor) of the region, and the position was held by the Lahej (Yemeni) family, which had served in the Ottoman army as part of the Nassib infantry. In

1920, the kabadırıcı was once again held by the Ottoman state, this time by the Şakirin (Iraq) family. In the 1980s, Lahej and Şakirin were overthrown by the Ba'athist regime, which was allied to Iran. After Saddam Hussein's rise to power, the Lahej were restored to their post.
